Research article

[The discovery and preclinical pharmacology of JNJ-10450232 \(NTM-006\), a centrally penetrant, non-opioid structural analog of acetaminophen with comparable analgesic and anti-pyretic properties but no evidence of hepatotoxicity](#)

Christopher M. Flores, John R. Carson, Ellen E. Codd, Scott L. Dax, ... Gary E. Eichenbaum

Article 105830

Research article

[Metabolism and disposition of JNJ-10450232 \(NTM-006\) in rats, dogs, monkeys and humans](#)

Heng-Keang Lim, Jie Chen, Wing Lam, Yong Gong, ... Christopher M. Flores

Article 105379
